

Dear Parent/Carer,

As part of our Remote Education strategy, we would like to offer parents and carers the opportunity to provide an important update on the current position of accessibility to technology and internet access at the family home. We remain unsure how long children will be educated remotely, and we remain determined to support children and families wherever possible, through improving access to technology including appropriate devices and improved access to the internet.

Therefore, we are asking all parents and carers to complete a short survey answering a series of questions that will enable us to allocate the most appropriate resource and support to all our learners helping strengthen access to and engagement with learning.

We would be grateful if you could complete the survey by **Friday 29th January 2021** to help support the continued planning of amazing remote education across the school.

If you have any questions regarding the survey or would like to discuss access to technology in more detail, then please do contact reception at your earliest convenience.

Kind regards,

Jim Smith
Head of School
