<p><b>What is remote learning?</b></p>	<p>Remote learning is another name for homework. It isn't live lessons and can be completed anytime at home.</p> <p>At Meden, we believe homework is an essential part of learning. It has huge potential to support our students in being able to know more, understand more and complete more work, and do this well.</p> <p>It plays a crucial role in supporting students on their journey to independence and being able to self-regulate their own learning. Effective homework can lead to a significant improvement in student progress and has been shown to have the highest impact on secondary school age students. Homework at Meden School will be set with a clear purpose, in one of these 3 areas; retrieve, recall and repeat.</p> <p>Homework will be set via our Microsoft Teams as an assignment. It will be made clear it is homework in its title. It is the responsibility of the student to access the homework via this platform (Microsoft Teams). All information regarding each piece of homework will be on their personal Teams account.</p> <p>At the start of term students will be refresher lessons on how to access Teams and where to find their homework. Each student will have around 1hr of homework a day.</p> <p>Thank you for completing the Technology Questionnaire, the outcomes of this has allowed us to plan and organise our chrome book resources effectively. Please be aware we have a limited number of Chrome books for students who have no access to IT at home. If your child requires a chrome book to complete homework, then please contact the school using this link: <a href="#">Technology Questionnaire</a></p>
