Meden School Curriculum Planning							
Subject	A Level	Year Group	12	Sequence No.	8-10	Торіс	Skeletal Muscle Contraction

Retrieval	Core Knowledge	Student Thinking
What do teachers need to <b>retrieve</b> from students before they start teaching <b>new content</b> ?	What <b>specific ambitious knowledge</b> do teachers need to teach students in this sequence of learning?	What real life examples can be applied to this sequence of learning to <b>development of our students thinking</b> , <b>encouraging them to see the inequalities around them</b> and 'do something about them!'
<ul> <li>Students own knowledge and understanding of sport         <ul> <li>students prior sporting experience, through playing or spectating or teaching, may have developed some level of knowledge in aspects of topics covered in this unit.</li> </ul> </li> <li>KS4 Curriculum         <ul> <li>students will be introduced to joints/bones and muscles used in their Core PE lessons.</li> <li>Students will have some understanding of joints/bones and muscles from their Science lessons</li> </ul> </li> <li>KS3 Curriculum         <ul> <li>Regularly performed a wide range of sports and will have knowledge of the individual skills needed for those sports. They will be able to identify them and will have understanding on how they are performed.</li> </ul> </li> </ul>	Students will develop their understanding structure and role of motor units in skeletal muscle contraction. They will firstly be able to describe what the following's role are: • motor neuron • action potential • neurotransmitter • 'all or none' law. Students will be able to describe how each of the above contribute to muscular contraction and will be able to do so by applying it to a wide range of sporting examples.	<ul> <li>Each week, a key theme will run through all PE lessons linked to real life examples. These will be linked to the particular learning outcome the students are on at the time and will be consistent across the department. The aim will be for students to develop their thinking, recognise the inequalities within sport (linked to the topic) and do something about them. In the 'teaching' lessons, students will be provided with a starter to challenge stereotypes in sport and then an activity linked to heading being covered where they can 'do something about them.'</li> <li><b>1.</b> Physical Activity Government Guidelines and Recommendations - students should have 60 minutes of moderate to high intensity exercise every day. Do they get this? How?</li> <li><b>2.</b> Barriers to Participation for Children and Teenagers</li> <li><b>3.</b> Solutions to the Barriers</li> <li><b>4.</b> Current Issues in Sport/Sport in the News - Linked to the impact of PE on Mental, Physical or Social Health</li> <li><b>5.</b> Physical Benefits of Sport and PE on the Body</li> <li><b>6.</b> Social Benefits of Sport and PE on the Body</li> </ul>

<ul> <li>challenge stereotypes and raise awareness of opportunities for them to get involved e.g. Mansfield Rugby Club for Girls</li> <li>Extra Curricular/Clubs</li> <li>Students will have their own knowledge of the sports they regularly participate within and will be able to relate to these within their work</li> <li>All students will be given a breadth of extracurricular opportunities to allow them to perform further in the key sports discussed in this topic</li> <li>Students will have viewed sports that will be discussed and may understand how the body performs it</li> <li>Ideally, students will compete in sport outside of school</li> <li>Fer Students will compete in sport</li> <li>Ideally, students will compete in sport outside of school</li> <li>All students will compete in sport</li> <li>Sporting Values – Excellence – Linked to Role Models and demonstrating excellence within a sport</li> </ul>	to
them to get involved e.g.       PE         Mansfield Rugby Club for Girls       Peudatity of Sport in the UK – what are the current trends for the most popular sport in the UK – what are the current trends for the most popular sport in the UK – which sport sports in the UK – which sport are they the most popular sports?         Students will have their own knowledge of the sports they regularly participate within and will be able to relate to these within their work       9. Emerging/Growing Sports in the UK – which sport are new to the UK? How can we make them more popular?         All students will be given a breadth of extracurricular opportunities to allow them to perform further in the key sports that will be discussed and may understand how the body performs it       11. Major Sporting Events – What are the?? When a where do they occur?         Students will compete in sport outside of school       9. Image: Sport in the News – Linit to new sports, growing sports or a major sport in the News – Linit to new sports, growing sports or a major sport in the News – Linit to new sports, growing sports or a major sport in the News – Linit to new sports, sport in the News – Linit to new sports, sport outside of school	
Mansfield Rugby Club for Girls8. Popularity of Sport in the UK – what are the current trends for the most popular sports?Extra Curricular/Clubs9. Emerging/Growing Sports in the UK – what are the current trends for the most popular sports?Students will have their own knowledge of the sports they regularly participate within and will be able to relate to these within their work9. Emerging/Growing Sports in the UK – what is their role within a sport? What are the key NGB's for each sport?All students will be given a breadth of extracurricular opportunities to allow them to perform further in the key sports discussed in this topic11. Major Sporting Events – What are the? When a where do they occur?Students will have viewed sports that will be discussed and may understand how the body performs it12. Olympic Creed and Olympic Values 13. Current Issues in Sport/Sport in the News – Linit to new sports, growing sports or a major sportin event occurringIdeally, students will compete in sport outside of school14. ME in PE – Couch to 5km and Meden Park Run Challenge – Students are introduced to two free activities that they can get involved in. Designed improve physical, social and mental health within PEStoppring Values – Excellence – Linked to Role Models and demonstrating excellence within a

Designed to improve physical, social and mental health within PE</li> </ul>
Students MUST reference four different sporting examples within each heading and will be penalised for sticking to one sport throughout. Teachers will guide students using a model example of a sport they are familiar with before exploring different real-life examples.
